UNDERTAKING

Updated November 24, 2020

The attached Manitoba Media Production Industry – COVID-19 Health and Safety Guide (the “**Guide**”) sets out recommendations/best practises to assist employers, employees, contractors and other stakeholders regarding the implementation of distancing, cleaning, hygiene and related practises consistent with the requirements of Manitoba Government Regulations pertaining to film/TV production (collectively “**Best Practises**”).

Each of the undersigned has read the Guide, fully endorses the Guide, and voluntarily undertakes sincere, good faith efforts to implement all Best Practises as they currently exist or as they may be updated to or expanded upon in the future (our “**Undertaking**”).

We believe that implementation of the Best Practises will result in reasonable, workable, risk mitigation for all employers, cast, crew, contractors, services suppliers and other stakeholders. We strongly encourage all stakeholders in the Media Production Industry operating in Manitoba to join us and provide their Undertaking by signing below.
